

Access structure with insulated cladding
CNPE Flamanville 1&2

Expertise & Production

An in-house design specializing in hybrid solutions that can integrate several steel structure techniques.

Teams of specialists to support you at every stage of your project, from conception to completion.

Qualifications and know-how that enable us to work in nuclear and sensitive environments, as well as on structures of all kinds. (ISO 45001, EDF UTO, QUALIANOR - radiation protection)

3D drafting software coupled with special software to prepare the most complex calculations (including seismic calculations) and the exact list of materials required for cost optimization.

NUVIA is involved throughout the lifecycle of nuclear and sensitive facilities, from construction to operation and maintenance, right through to dismantling. The Group has expertise in three main areas: engineering, services and works, and products. Safety and security are at the heart of all its activities, which cover civil engineering, mechanical engineering, waste management and radiation protection, including nuclear measurement, fire and flood protection.

Means of access, Containment & Insulation

NUVIA Access designs and implements innovative solutions for all sectors of.

Supporting your energy

Means of access with design a specific support console Extrados
CNPE Cattenom

SERVICES & WORKS: multi-skilled, qualified teams committed to working with you in complete safety

MEANS ACCESS

- ➔ Fixed / Rolling Scaffolding
- ➔ Low Level Access
- ➔ Platforms / Gateways
- ➔ Access tower
- ➔ Rental and sale of scaffolding and other access equipment

PROTECTION SYSTEMS

- ➔ Containment
- ➔ Shelter / Umbrella
- ➔ Covering
- ➔ Air treatment

CALORIFUGE

- ➔ Study and definition
- ➔ Supply of materials
- ➔ On-site installation

SNLE containment
Naval Group Cherbourg

ENGINEERING

Our in-house engineering department designs innovative solutions to meet your needs

- ➔ Design of temporary structures
- ➔ Design of containment systems
- ➔ Technical assistance
- ➔ Advice and follow-up
- ➔ Drafting of calculation notes for operating, climatic and seismic loads

- ➔ Finite element calculations
- ➔ Study and design of specific parts
- ➔ Advice and recommended solutions

Access and containment

EPR Flamanville

BUSINESS SECTORS

NUVIA Access meets the specific needs of each business sector

NUVIA ACCESS OPERATES IN ALL BUSINESS SECTORS

- ➔ Infrastructure & Civil
- ➔ Engineering
- ➔ Industry
- ➔ Nuclear
- ➔ Defense
- ➔ Building
- ➔ Hydraulics
- ➔ Historical monuments
- ➔ Show
